Emergency Alerting Policy 2026

This policy defines inclusive communication standards for urgent notices distributed across website, SMS, email, and emergency status channels.

Policy requirements

- Critical notices must publish plain-language HTML and accessible PDF together.
- Every emergency table must include row and column header associations.
- Alert updates require timestamped revision notes for assistive-technology users.

Timeline checkpoint view

Critical notices must publish plain-language HTML and accessible PDF together.
Every emergency table must include row and column header associations.
Alert updates require timestamped revision notes for assistive-technology users.

Channel	
Max Delay	
Accessible Format	

Notification channel standards

Channel	Max Delay	Accessible Format	Owner
Website	10 minutes	HTML + PDF	Web Team
SMS	5 minutes	Plain text	Public Safety
Email	15 minutes	Structured HTML	Comms Team

All channels require parity in timing and core instructions.
